IDENTIFIERS	*Maryland

ABSTRACT

Census data are presented for Maryland special education students (ages 3-21) as of December 1, 1994. Statistical data are reported on: percent of special education students by disability; the number of students in each disability category in state special schools and local education agencies (LEAs); the number of students receiving special education by age and disability; the number of students by intensity of disability and age for state schools and LEAs; the number and percent of students by gender for state schools and LEAS; the number and percent of students by race/ethnicity for state schools and LEAs; the number of enrollments for infant and toddler Part H programs (birth to age 3) by LEA; and the number of special education students, teachers, and aides by LEA. Each December 1 the State collects information on every special education student who resides in state of Maryland.* These data are collected from all 24 Local Education Agencies(LEAs), State Operated Programs(SOPs), and State funded schools. This census serves as a snapshot of special education activity on December 1, 1994. The child counts were reported to the federal government during February, 1994. The count is used for federal funding to Maryland for its school level special education programs.

*In order to be included in this count the child must be identified as having a disability, have active services, and have an IEP that has been updated over the last 13 months.
